

Start Your Career Path in Rehabilitation Therapy

Professionals in the field of therapy and rehabilitation help people return to independence and self-reliance. Specialization centers around two paths — physical therapy and occupational therapy. Physical therapy focuses on improving the patient’s ability to move their body and occupational therapy focuses on improving the patient’s ability to perform activities of daily living. *Remember, no career path is the same. For the most up-to-date information, contact the school or business.*
